FATIMA SARFARAZ

fssarfaraz@gmail.com  github.com/fssarfaraz UAE Golden Visa Holder

Highly motivated developer and Graduate Student at Boston University. Undergraduate double major in Computer Science and Finance and studing an MS in AI. Currently a Machine Learning Engineer (Generative AI) for an EdTech research project in collaboration with Murdoch University. Proven ability to combine technical AI expertise with entrepreneurial business acumen.

TECHNICAL & ANALYTICAL SKILLS

AI/ML Problem Solving
Generative AI, RAG frameworks, Model Training & Evaluation, Azure ML, Dataset Cleaning, GCP, Model Deployment

Software Engineering
Python, C++, C, Java, SQL (Oracle), UNIX

Business Intelligence
Financial analysis, Data Science, Strategic Planning, Lifecycle Management

PROFESSIONAL EXPERIENCE

Backend AI Engineering Intern 07/2026 – Present
FlyRank
- Developed production-ready backend architectures focusing on RAG, and evaluation pipelines using Python (FastAPI).
- Defined RESTful endpoints, payloads, status states, and comprehensive error-handling strategies using OpenAPI.
- Learned defensive software design principles around LLM integration.
- Completed specialized coursework and worked towards Anthropic certifications to learn best practices.

AI Engineer and Data Scientist 05/2024 – Present
Murdoch University
Research Project - AI in EdTech
- Addressed gaps in traditional educational delivery by architecting a Generative AI application tailored for EdTech research.
- Engineered the end-to-end pipeline, from cleaning complex datasets to integrating RAG frameworks for high-accuracy outputs. Implemented deep learning frameworks such as PyTorch and TenserFlow.
- Optimized model performance for specific application goals and translated technical progress for academic and stakeholder presentations.

University PASS Tutor 01/2023 – 06/2023
Murdoch University
- Identified common logic bottlenecks preventing student success in core programming courses.
- Designed interactive learning tools to simplify complex Data Structures and Abstractions.

Co-Founder and CEO 03/2017 – 03/2020
Doll Me Up Box Fujairah, UAE
- Identified a niche market for high-end, luxury makeup accessibility in the UAE.
- Built a subscription-based business model from the ground up, overseeing operations, supply chain, and customer acquisition.
- Successfully managed the full business lifecycle for 3 years, demonstrating strong financial and operational leadership.

EDUCATION

Master of Science in Computer Science & AI 08/2026 – Present
Boston University

Bachelor of IT in Computer Science and Finance 2021 – 01/2024
Murdoch University
GPA: 3.64 out of 4

CERTIFICATES & AWARDS

IBM Data Science Professional Certificate 06/2024

Vice Chancellor's Commendation for Academic Excellence 2022
Murdoch University
